REQUEST FOR PROPOSAL ("hereinafter “RFP”") HLID 2022-017

Notice is hereby given that pursuant to Chapter 103D, Hawaiʻi Revised Statutes, as amended, (hereinafter “HRS”), the Office of Hawaiian Affairs (hereinafter “OHA”) and Hālawa-Luluku Interpretive Development (hereinafter “HLID”) Project will be accepting proposals from qualified firms to provide services for Construction Management (hereinafter “CM”), inspection and material testing during the construction phase of HLID, that will ensure completion of proposed support facilities and some of the mitigation elements identified for the North Hālawa Valley and Luluku Project Areas. The proposed mitigation elements relevant to this RFP are the construction of both traditional Hawaiian and contemporary structures, ensuring connections to associated utility installation, and the acquisition of permits to allow stewards to take care of the cultural sites in perpetuity. The support facilities chosen for the construction phase have been determined through review of previous feasibility reports, completing design-consultation phase with the stewards groups, and the finalization of their Stewardship Management Plans. The purpose of the work is mitigation designed to preserve and protect select cultural sites impacted by the construction of Interstate H-3.

This RFP may be downloaded from either the State Procurement Office (hereinafter “SPO”) website at https://hands.ehawaii.gov/hands/opportunities and the OHA website at www.oha.org/solicitations beginning December 7, 2021.

Proposals shall be submitted via email to proposals@oha.org by 2:00 p.m. Hawaiʻi Standard Time (hereinafter “HST”), Wednesday, January 12, 2022. The official time will be that which the email is received by OHA.

Section 1 – Administrative Overview

I. Authority

In 1978, the Article XII of the State of Hawai‘i Constitutional Convention established the Office of Hawaiian Affairs (hereinafter “OHA”) to address the historical injustices and challenges arising out of those circumstances. Chapter 10 of the Hawai‘i Revised Statutes, as amended, outlines the OHA’s duties and purposes, including promoting and protecting the rights of Native Hawaiians.

The OHA is a semi-autonomous public agency of the State of Hawai‘i, with the legal mandate of bettering the conditions of Native Hawaiians. The OHA’s mission is “To mālama (protect) Hawai‘i’s people and environmental resources and the OHA’s assets toward ensuring the perpetuation of the culture, the enhancement of lifestyle, and the protection of entitlements of Native Hawaiians while enabling the building of a strong and healthy Hawaiian people and nation, recognized nationally and internationally.”

The OHA seeks to competitively procure and engage a qualified firm to provide CM services to enable, monitor, and ensure completion of construction of mitigation elements in the North Hālawa Valley and Luluku Project Areas.

A determination has been made that the OHA is unable to secure these CM services through a low bid process. Factors included in the determination are: 1) price is not the primary consideration in determining an award; 2) the resulting contract may need to be other than a fixed price type; 3) the specifications for the services cannot be sufficiently described through low bid process; 4) oral or written discussion need to be conducted with Offerors concerning their proposals; 5) Offerors may need to revise their proposal, including price; and 6) the award needs to be based on a comparative evaluation in order to determine the most advantageous offering to the OHA. To that end, a low bid process is not practicable.

This RFP is issued under the provisions of Chapter 103D, HRS, as amended, and its related administrative rules. Offerors are charged with presumptive knowledge of all requirements of the cited authorities. Submission of a valid executed proposal by any Offeror will constitute admission of such knowledge on the part of such Offeror.

VIII. Submission of Sealed Proposal

A. Form/Formats. Proposal forms and formats such as for the price proposal are included in Section 5 - Attachments to this RFP.
B. Proposal Submittal. Proposals must be submitted via email to proposals@oha.org by the date and time designated in this RFP. Any proposals received after the designated date and time will be rejected.

C. Pre-opening Modification or Withdrawal. All proposals may be modified or withdrawn prior to the deadline for submittal by written notice to modify or withdraw the proposal. All requests for modification will be sealed, accompanied by the actual modification to the proposals, and signed by an authorized signatory.

The written request must be submitted to proposals@oha.org. Modifications and/or withdrawals will be clearly marked as such and must be received by the OHA no later than Tuesday, December 28, 2021.

D. Wages and Labor Law Compliance. Prior to entering into a Contract in excess of $25,000, an Offeror will certify that it complies with section 103-55, HRS, as amended, entitled Wages, hours, and working condition of employees of contractors performing services. Section 103-55, HRS, provides that the services to be performed will be performed by employees paid at wages not less than wages paid to public officers and employees for similar work. Offerors are further advised that in the event of an increase in wages for public employees performing similar work during the period of the Contract, the Offeror will be obligated to provide such increased wages.

Offerors will complete and submit the attached Wage Certificate certifying that the services required will be performed pursuant to section 103-55, HRS. See Attachment 5 – Wage Certificate.

The Offeror will be further obligated to notify his/her employees performing work under this Contract regarding the provisions of section 103-55, HRS, and current wage rates for public employees performing similar work. The Offeror may meet this obligation by posting a written notice to this effect in the Offeror’s place of business in an area accessible to all employees.

Offerors are strongly encouraged to account for salary increases as posted by the State of Hawai‘i Department of Human Resources Development (hereinafter “DHRD”). The OHA will consider requests for increases as a result of wage increases to public officers and employees during the Contract period or any option period that is not published. At the release of this solicitation, the effective wages through January 1, 2021, for state employees performing similar work have been published by the DHRD.

If wages increase after the execution of the Contract, the Offeror may request an increase in Contract price in order to correspondingly increase the wages of the Offeror’s employees performing the work, including any increase in costs for benefits required by law that are automatically increased as a result of increased wages, such
as federal old-age benefits, workers’ compensation, temporary disability insurance, unemployment insurance, and prepaid health insurance.

The Offeror will not be paid for any reimbursement of retroactive pay negotiated by the State. The Offeror’s request for the increase must meet the following criteria:

1. At the time of the offer, if the Offeror’s hourly wage rate is greater than the prevailing State wage, the Offeror’s requests for increase will not be considered.

2. At the time of the request, the Offeror must or must have provided documentation to show that it is in compliance with section 103-55, HRS (i.e., its employees are being paid no less than the known wage rates of a State position). Documentation will include the employee’s payroll records and a statement that the employees are being utilized for this Contract.

3. Request for an increase must be made in writing to the OHA on a timely basis as follows:

   a. Request for increase for the initial Contract period must be made as soon as practicable after the State wage agreements are made public. Approved requests will be retroactive to the date of increase for the State employees with adequate documentation that the Offeror provided its employees a wage increase.

   b. To obtain the current wage information, download the information from the Department of Human Resources Development’s website at the following address:

      https://dhrd.hawaii.gov/state-employees/classification-and-compensation/

      It is the sole responsibility of the Offeror to comply with section 103-55, HRS, as applicable.

Confidential Information. If an Offeror believes that any portion of a proposal contains information that should be withheld as confidential, the Offeror will request in writing nondisclosure of such information and provide justification to support the designation of confidentiality. Such information will accompany the proposal, be clearly marked, and will be readily separable from the proposal documents to facilitate the eventual public inspection of the non-confidential section of the proposal documents. Note the price and the provisions of the minimum required services are not considered confidential and will not be withheld.

Offerors who choose to identify portions of their proposal as confidential will be responsible to ensure that the minimum services are not included. The OHA will not make any determination of confidentiality for the Offeror.
If the proposal is marked confidential in its entirety, the OHA Procurement Services Program will not make a determination of confidentiality and will refer any request for information to the OHA Corporate Counsel and/or the State’s Office of Information Practices.

E. **Exceptions.** Offerors will list any exceptions taken to the terms, conditions, specifications, or other requirements listed herein. Offerors must reference the RFP section where the exception is taken and provide a description of the exception taken and any proposed alternative. The OHA will retain the right to grant exceptions to discretionary policies. Request for exceptions from State, Federal, or local laws will not be approved.

IX. **Discussions with Offerors Prior to Proposal Submissions**

Discussion may be conducted with the Offeror to promote understanding of the OHA’s requirements.

X. **Opening of Proposals**

The date and time recorded for the receipt of any proposals by the OHA, any modification to proposals, and withdrawals of proposals will be the date and time of receipt of the email by the OHA. All documents received will be held in a secure place by the OHA and will not be examined for evaluation purposes until the submittal deadline. The procurement file will be open to public inspection after a contract has been awarded and executed by all parties. Proposals will not be opened at a public proposal opening.

XI. **Additional Materials and Documentation**

Offerors may include up to five (5) pages of documentations, literatures, samples, or brochures of related services, which demonstrates experiences to related executive recruitment services.

XIII. **Additional Terms and Conditions**

The OHA reserves the right to add terms and conditions during contract negotiation and
discussions. These terms and conditions may be applicable to the scope of the RFP and will not affect the proposal evaluation.

XIV. Trade Secrets/Confidential Information

If an Offeror believes that any portion of their proposal contains information that should be withheld as confidential, the Offeror will provide a written request for nondisclosure of such information to be kept confidential and provide justification to support confidentiality. Such information will accompany the proposal, will be clearly marked, and will be readily separable from the proposal packet to facilitate eventual public inspection of the non-confidential sections of the proposal packet. Note that price is not considered confidential and will not be withheld.

XV. Intellectual Property Rights

The OHA reserves the right to unlimited, irrevocable, worldwide, perpetual, royalty-free, non-exclusive licenses to use, modify, reproduce, perform, release, display, create derivative works from the work product, and to disclose the work product, and to transfer the intellectual property to third parties for the OHA’s purposes.

(END OF SECTION)
Section 2 – Scope of Services

I. Information

A. Project overview and history

On August 12, 1987, the Federal Highway Administration (hereinafter “FHWA”), the State Historic Preservation Officer, and the Advisory Council on Historic Preservation (hereinafter “ACHP”) executed a Memorandum of Agreement (hereinafter “MOA”) to ensure Section 106 Compliance of the National Historic Preservation Act (hereinafter “NHPA”) for the construction of Interstate H-3. The HDOT (state landowners of the Interstate H-3 right-of-way) and the OHA are acknowledged as signatories with specific roles to follow as well. The Interstate H-3 corridor project, primarily designed to link military installations (Naval Base Pearl Harbor with Kaneohe Marine Corps Base), began with planning in the early 1960s. Due to a multitude of challenges, the Interstate would not open for use until 1997.

Stipulation B of the MOA required the OHA (in consultation with HDOT) to create an Interpretive Development Plan (hereinafter “IDP”) for cultural sites impacted by Interstate H-3 construction. Thus, in 1999, the Cooperative Agreement was made between the OHA and the HDOT which created the HLID project for three main purposes: 1) create an IDP; 2) create a Stewardship Management Plan (for perpetual maintenance); and 3) implement select projects from the IDP if funding allows. Eleven (11) million dollars was originally allotted for this project.

After years of community consultation and the completion of various archaeological reports, the IDP was eventually finished and approved in December 2008. HLID is currently trying to implement proposed mitigation elements as put forth in the IDP with a remaining budget of approximately five (5) million dollars. It is important to emphasize that these mitigation elements are driven by the desires of the community.

Many of the proposed mitigation elements are the construction of both traditional Hawaiian and contemporary structures, ensuring access to associated utilities, and finalizing acquisition of permits to allow stewards to take care of the cultural sites in perpetuity. The support facilities chosen for the construction phase have been determined through review of previous feasibility reports, completing the design-consultation phase with the stewards, and during finalization of their Stewardship Management Plans.

HLID has been working with our current Contractor to design the support facilities and initiate construction plans for each project area. The current Contractor has provided feasibility reports, concluded the Environmental Assessment (hereinafter “EA”) and Conservation District Use Permit (hereinafter “CDUP”) exemption process, and drafted permitting and construction documents that include a hālau,
covered storage areas, rooftop water catchment, composting/incinerator toilet facilities, parking, site grading, and utility installation plans.

B. Funding source and period of availability

Funds are subject to the HLID biennial budget as approved by the HDOT and the FHWA.

It is understood that the contract will not be binding unless the OHA can document that there is an available and unexpended appropriation or balance of an appropriation over and above all outstanding contracts sufficient to cover the amount required by the contract. Any contract entered into as a result of this RFP is binding only to the extent that funds are certified as available and allocated and received by the OHA. The availability of funds in excess of the amount certified as available shall be contingent upon future appropriations or special fund revenues.

It has been determined that there are sufficient funds to pay for the initial term of the Contract and the funds necessary for the remaining terms of the Contract are likely to be available from the HDOT and the FHWA. Pursuant to Chapter 103D-315, HRS, as amended, the OHA reserves the right to cancel the contract when future funds are not available to support continuation of performance in subsequent contract periods. Nothing in this RFP shall be interpreted to mean that the OHA shall be liable to pay for services provided.

II. General Requirements

A. Qualifying Requirements

1. The Offeror will comply with section HRS §103D-601, as amended, entitled Cost Principles Rules Required.

## Section 4 – Proposal Evaluation & Award

### 1. Proposal Evaluation

An RFP evaluation committee, approved by the OHA’s Chief Procurement Officer or designee, will evaluate all responsive and responsible proposals. The evaluation of such proposals will be based solely on the evaluation criteria set out in this RFP. The evaluation committee’s primary responsibility will be to review the technical aspects of the proposal submitted. The price proposal review will be conducted by the evaluation committee chairperson. The review criteria will be as follows:

<table>

</table>

6. Price:
The Offeror proposing the lowest price will be assigned the maximum of 10 points. Each proposal that has a higher cost factor than the lowest will be assigned a lower rating. 10 points

7. Financial Capability:
Up to 5 points will be awarded based on the Offeror's proposal which clearly and concisely demonstrates that it has the financial capacity to complete the scope of work in this RFP in a timely and orderly manner. 5 points

8. Commitment to Section 2:

TOTAL POSSIBLE POINTS 100 Points

Each proposal will be classified initially as acceptable, potentially acceptable, or unacceptable. If numerous acceptable and potentially acceptable proposals are submitted, the evaluation committee may rank the proposals and limit the priority list to three (3) responsive and responsible Offerors who submitted the highest-ranked proposals. If there are less than three (3) acceptable or potentially acceptable proposals, the OHA will not be required to hold discussion with these Offerors who submitted unacceptable proposals.

II. Mandatory Requirements

The OHA will conduct an initial review to ensure that all proposals meet the minimum threshold requirements. Each proposal will be reviewed to ensure submittal of all required attachments, certifications, forms, and narrative sections.

Statements which indicate that mandatory certification will be submitted upon Contract award will be unacceptable.

III. Financial/Price Proposal Review

The financial/price proposal review will be evaluated for financial and contractual acceptability and reasonableness of the price proposal. The proposal with the lowest cost
factor will receive the highest available rating allocated to cost. Each proposal that has a higher cost factor than the lowest will be assigned a lower rating for cost.

The points allocated higher to higher priced proposals must be equal to the lowest proposal price multiplied by the maximum points available for price, divided by the higher proposal price as follows:

\[
\text{Price of the lowest price proposal x 10} \\
\text{Price of the proposal being rated}
\]

In determining whether a proposal is responsive, the OHA will evaluate the costs and supporting documentation against realistic operational expenses.

The OHA will also review the most recent audited statements of the Offeror.

IV. Technical Review

The Offeror’s proposal will be in the form prescribed by this solicitation and will contain a response to each of the areas identified that affects the evaluation factors for award.

A. The technical proposal will be evaluated to determine if the Offeror possesses the capability to successfully perform the requirements of the solicitation. The proposal criteria are:

1. Experience and Capability;
2. Personnel and Staffing;
3. Service Delivery;
4. Financial Capacity; and
5. Commitment to Section 2/Other Requirements.

B. Proposals will be evaluated for technical and contractual acceptability. Proposals will be prepared in accordance with the instructions given in the RFP and will meet all requirements set forth in this RFP.

C. All proposals will be reviewed for reasonableness. All Offerors whose offer are not within the competitive range will be notified that their proposals are unacceptable, negotiations/discussions with them are not contemplated, and any revisions of their proposals will not be considered.

D. Award will be made to the responsible Offeror whose proposal conforms to the solicitation and will be most advantageous to the OHA considering price and other factors as indicated below.

Pursuant to section 3-122-59, HAR, if for a given request for proposal there is only one (1) responsive and responsible Offeror submitting an acceptable proposal, an award may be made to the single Offeror, or rejected, if conditions in section 3-122-
59(a)(1) are not met, and new requests for proposal may be solicited or the procurement may be cancelled.

E. The OHA reserves the right to award a Contract on the basis of the initial offers received without discussion. Offers are solicited on an "all or none" basis.

Failure to submit offers for all items and quantities listed will be cause for rejection. Proposals should be submitted initially on the most favorable terms of a price and technical standpoint, which the Offeror can submit to the OHA.

All proposals submitted will be evaluated on the basis of the evaluation criteria listed herein. Proposals will conform to all terms and conditions contained in the RFP. Proposals which do not conform to all requirements expressed in this solicitation may be rejected without further evaluation, deliberation or discussion.

F. Past Performance. The OHA may evaluate the quality of each Offeror's past performance. The assessment of an Offeror’s past performance will be used as one means of evaluating the credibility of the Offeror’s approach to work accomplishment. A record of marginal or unacceptable past performance may be an indication that the promises made by the Offeror are less than reliable. Such an indication will be reflected in the OHA’s overall assessment of the Offeror’s proposal. However, a record of acceptable or even excellent past performance will not result in a favorable assessment of an otherwise unacceptable technical proposal.

In investigating an Offeror’s past performance, the OHA may consider information in the Offeror’s proposal and information obtained from other sources, including past and present customers and their employees; other government agencies, including state and local agencies, consumer protection organizations and better business bureaus; former subcontractors; and others. Evaluation of past performance is a subjective assessment based on a consideration of all relevant facts and circumstances. The OHA may seek to determine whether the Offeror has consistently demonstrated a commitment to customer satisfaction and timely delivery of quality goods and services at fair and reasonable prices.

The OHA’s conclusions about the overall quality of the Offeror’s past performance may be influential in determining the relative merits of the Offeror's proposal and in selecting the Offeror whose proposal is considered most advantageous to the OHA.

Past performance includes the Offeror’s record of conforming to specifications and to standards of good workmanship; the Offeror’s adherence to contract schedules, including the administrative aspects of performance, the Offeror’s control of costs, including costs incurred for changes in the scope of services; the Offeror’s reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and, generally, the Offeror’s business-like concern for the interests of the client.
V. Discussions - Kūkākūkā

Discussions may be conducted with priority listed Offerors who submit proposals determined to be acceptable or potentially acceptable of being selected for award, but proposals may be accepted without discussions. The objective of these discussions is to: 1) promote understanding of the requirements set forth in the RFP and the Offeror’s proposal; and 2) facilitate arriving at a contract that will provide the best value to the OHA, taking into consideration the evaluation factors set forth in this RFP. Any discussion is not intended to require an award of contract by the OHA.
