Notice to Offerors  
(Chapter 103D, Hawai‘i Revised Statutes)

REQUEST FOR PROPOSAL (“hereinafter “RFP”) No. LA 2021-022

Notice is hereby given that pursuant to Chapter 103D, Hawaii Revised Statutes, as amended, (hereinafter “HRS”), the Office of Hawaiian Affairs (hereinafter “OHA”) will be accepting proposals from qualified individuals and firms to provide real estate planning and development services as a consultant providing assistance to trustees and administration staff on a work assignment basis in a variety of planning, technical, and graphical activities related to its commercial real property portfolio. The “In-House” Development Consultant (hereinafter “IHDC”) will work for the OHA as its trusted advisor responsible for managing the entire development process; coordinating the work of the development team, and serving as a central point for communication to facilitate decision making. The IHDC shall also assist the OHA by providing additional resources and expertise to accomplish negotiated task assignments authorized by the OHA.

Offerors must have experience with real estate planning and development services, including extensive experience in managing all phases of development, a proven ability to assess the conditions of a commercial real estate portfolio, and knowledge of current City, State, and Federal regulations as they apply to the completion of a master plan and development.

This RFP may be downloaded from either the State Procurement Office (hereinafter “SPO”) website at https://hands.ehawaii.gov/hands/opportunities or the OHA website at www.oha.org/solicitations beginning May 24, 2021. Proposals shall be submitted via email to proposals@oha.org by no later than 2:00 p.m. Hawaii Standard Time (hereinafter “HST”), June 25, 2021. The official time will be that which the email is received by the OHA.

The OHA reserves the right to reject any and all proposals and to accept any proposal in whole or in part when in the best interest of the OHA and the State. Section 1 – Administrative Overview

I. Authority

Established under Article XII of the Constitution of the State of Hawai‘i and Chapter 10 of the Hawai‘i Revised Statutes (HRS), the OHA is a semi-autonomous public agency of the State of Hawai‘i, with the legal mandate of bettering the conditions of Native Hawaiians. The OHA’s mission is “To mālama (protect) Hawai‘i’s people and environmental resources and the OHA’s assets toward ensuring the perpetuation of the culture, the enhancement of lifestyle, and the protection of entitlements of Native Hawaiians while enabling the building of a strong and healthy Hawaiian people and lāhui, recognized nationally and internationally.”

The OHA seeks to competitively procure and engage a qualified individual or firm to provide real estate planning and development services as a consultant providing assistance to trustees and administration staff on a work assignment basis in a variety of planning, technical, and graphical activities related to its commercial real property portfolio. The “In-House” Development Consultant (IHDC) will work for the OHA as its trusted advisor responsible for managing the entire development process, coordinating the work of the development team, and serving as a central point for communication to facilitate decision making. The IHDC shall also assist the staff by providing additional resources and expertise to accomplish negotiated task assignments authorized by the OHA.

A determination has been made that the OHA is unable to secure these services through a low bid process. Factors included in the determination are: 1) price is not the primary consideration in determining an award; 2) the resulting contract may need to be other than a fixed price type; 3) the specifications for the services cannot be sufficiently described through low bid process; 4) oral or written discussion need to be conducted with Offerors concerning their proposals; 5) Offerors may need to revise their proposal, including price; and 6) the award needs to be based on a comparative evaluation in order to determine the most advantageous offering to the OHA. To that end, a low bid process is not practicable.

This RFP is issued under the provisions of Chapter 103D, HRS, as amended, and its companion administrative rules. Offerors are charged with presumptive knowledge of all requirements of the cited authorities. Submission of a valid executed proposal by any Offeror will constitute admission of such knowledge on the part of such Offeror.

If a component of this Timeline is delayed, the rest of the Timeline may be shifted accordingly.

VI. Virtual Information Meeting & Virtual Site Visit

Due to COVID-19, we will be offering a virtual informational meeting and virtual site visit scheduled for Friday, June 4, 2021 at 2:00 p.m. HST.

The OHA requests that all Offerors who plan to attend the virtual information meeting and the virtual site visit please submit the RFP Registration Form no later than Monday, May 31, 2021, 2:00 p.m. HST, so we may confirm your attendance.

VII. Submission of Questions

Offerors may submit questions to the RFP Coordinator at proposals@oha.org. The deadline for submission of written questions is provided in the Procurement Timeline, above. All written questions will be responded to in an addendum to this RFP and posted to the OHA’s website and the SPO website no later than the date of “OHA’s Response to Questions.”

The only official position of the OHA is that which is stated in writing and issued in this RFP and/or as addenda to this RFP. No other means of communication, whether oral or written, will be construed as a formal or official response/statement and may not be relied upon as such.

VIII. Submission of Sealed Proposal

A. Form/Formats. Proposal forms and formats such as for the price proposal are included in Section 5 - Attachments to this RFP.
B. **Proposal Submittal.** Proposals must be submitted via email to proposals@oha.org by the date and time designated in the Procurement Timeline for this RFP. Any proposals received after the designated date and time will be rejected.

C. **Pre-opening Modification or Withdrawal.** All proposals may be modified or withdrawn prior to the deadline for submittal by written notice to modify or withdraw the proposal. All requests for modification will be sealed, accompanied by the actual modification to the proposals, and signed by an authorized signatory.

The written request must be submitted to proposals@oha.org. Modifications and/or withdrawals will be clearly marked as such and must be received by OHA no later than 2:00 p.m. HST, June 25, 2021.

D. **Wages and Labor Law Compliance.** Prior to entering into a contract in excess of $25,000, the successful Offeror will certify that it complies with section 103-55, HRS, as amended, entitled “Wages, hours, and working condition of employees of contractors performing services.” Section 103-55, HRS, provides that the services to be performed will be performed by employees paid at wages not less than wages paid to public officers and employees for similar work. Offerors are further advised that in the event of an increase in wages for public employees performing similar work during the period of the contract, the IHDC will be obligated to provide such increased wages.

Offerors will complete and submit the attached Wage Certificate certifying that the services required will be performed pursuant to section 103-55, HRS. See Attachment 5 – Wage Certificate.

The IHDC will be further obligated to notify his/her employees performing work under the contract regarding the provisions of section 103-55, HRS, and current wage rates for public employees performing similar work. The IHDC may meet this obligation by posting a written notice to this effect in the IHDC’s place of business in an area accessible to all employees.

Offerors are strongly encouraged to account for salary increases as posted by the State of Hawai‘i Department of Human Resources Development (hereinafter “DHRD”). The OHA will consider requests for increases as a result of wage increases to public officers and employees during the contract period or any option period that is not published. At the release of this solicitation, the effective wages through January 1, 2021 for state employees performing similar work have been published by the DHRD.

If wages increase after the execution of the contract, the IHDC may request an increase in contract price in order to correspondingly increase the wages of the IHDC’s employees performing the work, including any increase in costs for benefits required by law that are automatically increased as a result of increased wages, such as federal old-age benefits, workers’ compensation, temporary disability insurance, unemployment insurance, and prepaid health insurance.
The IHDC will not be paid for any reimbursement of retroactive pay negotiated by the State. The IHDC’s request for the increase must meet the following criteria:

1. At the time of the offer, if the IHDC’s hourly wage rate is greater than the prevailing State wage, the IHDC’s requests for increase will not be considered.

2. At the time of the request, the IHDC must or must have provided documentation to show that it is in compliance with section 103-55, HRS (i.e., its employees are being paid no less than the known wage rates of a State position). Documentation will include the employee’s payroll records and a statement that the employees are being utilized for this contract.

3. Request for an increase must be made in writing to the OHA on a timely basis as follows:
   a. Request for increase for the initial contract period must be made as soon as practicable after the State wage agreements are made public. Approved requests will be retroactive to the date of increase for the State employees with adequate documentation that the IHDC provided its employees a wage increase.
   b. To obtain the current wage information, download the information from the Department of Human Resources Development’s website at the following address:

   https://dhrd.hawaii.gov/state-employees/classification-and-compensation/

   It is the sole responsibility of the Offeror to comply with section 103-55, HRS, as applicable.

E. Confidential Information. If an Offeror believes that any portion of a proposal contains information that should be withheld from public disclosure as confidential, the Offeror will request in writing nondisclosure of such information and provide justification to support the designation of confidentiality. Such information will accompany the proposal, be clearly marked, and will be readily separable from the proposal documents to facilitate the eventual public inspection of the non-confidential section of the proposal documents. Note the price and the provisions of the minimum required services are not considered confidential and will not be withheld.

Offerors who choose to identify portions of their proposal as confidential will be responsible to ensure that the minimum services are not included. The OHA will not make any determination of confidentiality for the Offeror.

If the proposal is marked confidential in its entirety, the OHA Procurement Services Program will not make a determination of confidentiality and will refer any request for information to OHA Corporate Counsel and/or the State’s Office of Information Practices.
F. **Exceptions.** Offerors will list any exceptions taken to the terms, conditions, specifications, or other requirements listed herein. Offerors must reference the RFP section where the exception is taken and provide a description of the exception taken and any proposed alternative. The OHA will retain the right to grant exceptions to discretionary policies. Request for exceptions from State, Federal, or local laws will not be approved.

IX. **Discussions with Offerors Prior to Proposal Submissions**

Discussion may be conducted with the Offeror to promote understanding of the OHA’s requirements.

X. **Opening of Proposals**

The date and time recorded for the receipt of any proposals by the OHA, any modification to proposals, and withdrawals of proposals will be the date and time of receipt of the email by the OHA. All documents received will be held in a secure place by the OHA and will not be examined for evaluation purposes until the submittal deadline. The procurement file will be open to public inspection after a contract has been awarded and executed by all parties. Proposals will not be opened at a public proposal opening.

XI. **Additional Materials and Documentation**

Proposal samples or descriptive literature should not be submitted unless specifically requested within the RFP. Offerors may include up to five (5) pages of documentation, literature, samples, or brochures of related services which demonstrate experience to related services.

XII. **RFP Amendments**

The OHA reserves the right to amend this RFP at any time prior to the proposal submission deadline. Offerors will be notified of the availability of amendments through verbal or written communications. All amendments to this RFP will be posted to the SPO website [https://hands.ehawaii.gov/hands/admin/search](https://hands.ehawaii.gov/hands/admin/search) and to the OHA website [www.oha.org/solicitations](http://www.oha.org/solicitations).

XIII. **Additional Terms and Conditions**

The IHDC shall be bound by the confidentiality requirements of the contract. IHDC personnel performing work under the contract shall be required to sign confidentiality agreements that prohibit the disclosure of non-public information received from the OHA.

The OHA further reserves the right to add terms and conditions during contract negotiations and discussions. These terms and conditions may be applicable to the scope of the RFP and will not affect the proposal evaluation.
XIV. Intellectual Property Rights

The OHA reserves the right to unlimited, irrevocable, worldwide, perpetual, royalty-free, non-exclusive licenses to use, modify, reproduce, perform, release, display, create derivative works from the work product, and to disclose the work product, and to transfer the intellectual property to third parties for the OHA’s purposes.

The IHDC understands that the information obtained from these efforts is the sole property of the OHA, and that any use of this information must be approved by the OHA, and that any information and all materials used to complete the project will be returned to the OHA.

XV. Cancellation of the Request for Proposals

The RFP may be canceled and any or all proposals rejected in whole or in part, without liability to the OHA, when it is determined to be in the best interest of the OHA.

XVI. Costs for Proposal Preparation and Verification

Any costs incurred by the Offeror in preparing or submitting a proposal are the Offeror’s sole responsibility. Any cost incurred by the Offeror prior to the execution of a contract is not eligible for reimbursement.

Costs incurred in connection with the review, inspection and verification of information provided in the RFP will be the Offeror’s sole responsibility.

Offerors must ensure that the OHA is provided with the written authorization(s) necessary to verify the information provided in the Offeror’s proposal.

XVII. Mistakes in Proposals

While Offerors are bound by their proposals, circumstances may arise where a correction or withdrawal of a proposal is proper. An obvious mistake in a proposal may be corrected, withdrawn, or waived by the Offeror to the extent that it does not conflict with the best interests of the OHA or to the fair treatment of other Offerors. Mistakes in proposals will be handled as provided for in Section 3-122, HAR.

XVIII. Rejection of Proposals

The OHA reserves the right to consider as acceptable and responsive only those proposals submitted in accordance with all requirements set forth in this RFP and which demonstrate an understanding of the problems involved and comply with the service specifications. Any proposal offering any other set of terms and conditions contradictory to those included in this RFP may be rejected without further notice.

(END OF SECTION)
Section 2 – Scope of Services

I. Information

A. Project overview and history

The OHA commercial real property portfolio is approximately thirty-five (35) total acres, comprised of five (5) acres at Nā Lama Kukui, located at 560 North Nimitz Highway in Honolulu, Hawai‘i, and thirty (30) acres in Kakaʻako Makai, Honolulu, Hawai‘i, as well as any additional commercial properties acquired during the term of the contract.

The following policies guide the OHA’s commercial real property portfolio:

1. Create synergy among the OHA’s Real Estate Vision, Mission, and Strategy Policy; Committee on Land and Property Policy Guidelines; Kaka‘ako Makai Policy, and the OHA’s Vision and Mana i Mauli Ola: OHA’s 15-Year Strategic Plan for 2020-2035;

2. Ensure that cultural and stewardship values drive/provide the basis for design and use decisions;

3. Balance near-term revenue stream with long-term financial and strategic goals and decisions;
   a. Create a Hawaiian Sense of Place;
   b. Balance Pono and Commerce;

4. Develop a timely, accountable process; and

5. Exercise appropriate leadership and management.

To develop its initial vision for Kaka‘ako Makai, in 2013, the OHA contracted the team of Hui Kukulua’e‘o, consisting of Group 70, Rider Levett Bucknall and Sanford Murata, Inc. To move forward with its development efforts, however, the OHA needed to frame the full spectrum of opportunities by identifying strategic priorities for development. In its Kaka‘ako Framework Plan in October 2013, the OHA defined the following three strategic priorities for Kaka‘ako Makai while also recognizing the need to generate an annual income from the Kaka‘ako Makai properties that is consistent with its $200 million value:

1. Create a kīpuka where Hawaiian national identity can flourish;
2. Support a hālau ola that invests in native intellectual capital & innovation; and

3. Integrate a planned community that embraces live, work, and play ideal.

Currently, the OHA is in the processes of developing a Conceptual Master Plan that will further refine the aforementioned strategic priorities into specific land use recommendations to ensure that all future development of the OHA’s Kakaʻako Makai lands is able to reach the apex of culture and commerce.

Over the past eight years, the OHA contracted two teams (in 2013 and 2015, respectively) to create framework, visualize possibilities, and identify strategies for development. **B. Funding source and period of availability**

Funds are subject to the biennial budget as approved by the OHA BOT and/or allocation by the Governor and State Legislature. Funding and period of availability may change upon written notice by the OHA.

It is understood that the contract will not be binding unless the OHA can document that there is an available and unexpended appropriation or balance of an appropriation over and above all outstanding contracts sufficient to cover the amount required by the contract. Any contract entered into as a result of this RFP is binding only to the extent that funds are certified as available and allocated and received by the OHA. The availability of funds in excess of the amount certified as available shall be contingent upon future appropriations or special fund revenues.

The IHDC shall also assist the staff by providing additional resources and expertise to accomplish negotiated task assignments authorized by the OHA.

The IHDC shall provide services that include, but may not be limited to the following:

A. Kaka’ako Makai Phase 1 – Vision Plan

1. Review, summarize, and synthesize work performed by the OHA’s previous consultants as listed in detail in Section 2. I. A.

2. Assist the OHA in developing a vision that integrates financial feasibility, political reality (e.g., residential or non-residential), community and stakeholder input, and other goals deemed relevant by the OHA.

3. This initial phase of the project should include a “strategic plan / vision plan” for the lands that includes aspects of planning, financial analysis, civil engineering, and architecture. This initial phase is intended to provide a framework to guide the OHA’s leadership in developing Kaka’ako Makai lands. This framework will also inform public outreach plans and additional analysis as required. The project work should include investigations into market demand, infrastructure capacity, potential lot massing, and other necessary studies. The output would include high-level financial models that will inform decision making. These initial models will be continually refined and updated over the life of the project.

If expansion of the permissible zoning, height, density or other restrictions is sought, the IHDC shall assist in the assembly of a professional team, setting objectives for the team, and defining the roles and responsibilities of team members.

4. Phase 2 should address alternatives for future development and improvements which should occur on these OHA lands – both horizontally (e.g., infrastructure, grading, environmental remediation, etc.) and vertically (i.e., construction of buildings). Financial models prepared during Phase 1 will inform and frame the discussion so the OHA may be able to evaluate and determine the amount of capital needed to develop these properties itself. The IHDC should consider, evaluate, and compare alternatives to the OHA financing the development of these properties itself with the other strategies of ground-leasing, joint-venturing, debt-financing, recruiting third-party equity investors, the selling of individual parcels owned by the OHA, or the consideration of any other viable strategies.

TOTAL POSSIBLE POINTS 100 Points

Each proposal will be initially classified as acceptable, potentially acceptable, or unacceptable. If numerous acceptable and potentially acceptable proposals are submitted, the evaluation committee may rank the proposals and limit the priority list to at least three (3) acceptable or potentially acceptable Offerors who submitted the highest-ranked proposals. If there are fewer than three (3) acceptable or potentially acceptable proposals, the OHA will not be required to hold discussion with these Offerors who submitted unacceptable proposals.

II. Mandatory Requirements

The OHA will conduct an initial review to ensure that all proposals meet the minimum threshold requirements. Each proposal will be reviewed to ensure submittal of all required attachments, certifications, forms, and narrative sections.

Statements which indicate that mandatory certification will be submitted upon contract award will be unacceptable.
III. Financial/Price Proposal Review

The financial/price proposal review will be evaluated for financial and contractual acceptability and reasonableness of the price proposal. The proposal with the lowest cost factor will receive the highest available rating allocated to cost. Each proposal that has a higher cost factor than the lowest will be assigned a lower scoring for cost.

The points allocated to higher priced proposals must be equal to the lowest proposal price multiplied by the maximum points available for price, divided by the higher proposal price as follows:

\[
\text{Price of the lowest hourly rate \times \text{Total possible points}} \div \text{Price of the proposal being rated}
\]

In determining whether a proposal is responsive, the OHA will evaluate the costs and supporting documentation against realistic operational expenses.

IV. Initial Review

The Offeror’s proposal will be in the form prescribed by this solicitation and will contain a response to each of the areas identified that affects the evaluation factors for award.

A. The proposal will be evaluated to determine if the Offeror possesses the capability to successfully perform the requirements of the solicitation. The proposal criteria are:

1. Experience and Capability;
2. Personnel and Staffing;
3. Service Delivery;
4. Financial Capacity and Pricing; and
5. Commitment to Section 2/Other Requirements.

B. Proposals will be evaluated for technical and contractual acceptability. Proposals will be prepared in accordance with the instructions given in the RFP and will meet all requirements set forth in this RFP.

C. All proposals will be reviewed for reasonableness. All Offerors whose offer are not within the competitive range will be notified that their proposals are unacceptable, negotiations/discussions with them are not contemplated, and any revisions to their proposals will not be considered.

D. Award will be made to the responsible Offeror whose proposal conforms to the solicitation and will be most advantageous to the OHA considering price and other factors as indicated below:
Pursuant to section 3-122-59, HAR, if for a given request for proposal there is only one (1) responsive and responsible Offeror submitting an acceptable proposal, an award may be made to the single Offeror, or rejected, if conditions in section 3-122-59(a)(1) are not met, and new requests for proposal may be solicited or the procurement may be cancelled.

E. The OHA reserves the right to award a contract on the basis of the initial offers received without discussion. Offers are solicited on an "all or none" basis.

Failure to submit offers for all items and quantities listed will be cause for rejection. Proposals should be submitted initially on the most favorable terms of a price and technical standpoint, which the Offeror can submit to the OHA.

All proposals submitted will be evaluated on the basis of the evaluation criteria listed herein. Proposals will conform to all terms and conditions contained in the RFP. Proposals which do not conform to all requirements expressed in this solicitation may be rejected without further evaluation, deliberation, or discussion.

F. The OHA may evaluate the quality of each Offeror's past performance. The assessment of an Offeror’s past performance will be used as one means of evaluating the credibility of the Offeror’s approach to work accomplishment. A record of marginal or unacceptable past performance may be an indication that the promises made by the Offeror are less than reliable. Such an indication will be reflected in the OHA's overall assessment of the Offeror’s proposal. However, a record of acceptable or even excellent past performance will not result in a favorable assessment of an otherwise unacceptable proposal.

In investigating an Offeror’s past performance, the OHA may consider information in the Offeror’s proposal and information obtained from other sources, including past and present clients and their employees; other government agencies, including state and local agencies, consumer protection organizations and better business bureaus; former subcontractors; and others. Evaluation of past performance is a subjective assessment based on a consideration of all relevant facts and circumstances. The OHA may seek to determine whether the Offeror has consistently demonstrated a commitment to client satisfaction and timely delivery of quality goods and services at fair and reasonable prices.

The OHA’s conclusions about the overall quality of the Offeror’s past performance may be influential in determining the relative merits of the Offeror's proposal and in selecting the Offeror whose proposal is considered most advantageous to the OHA.

Past performance includes the Offeror’s record of conforming to specifications and to standards of good workmanship; the Offeror’s adherence to contract schedules, including the administrative aspects of performance, the Offeror’s control of costs,
including costs incurred for changes in the scope of services; the Offeror’s reputation for reasonable and cooperative behavior and commitment to clients satisfaction; and, generally, the Offeror’s business-like concern for the interests of the client.

V. Method of Award

A. All proposals submitted will be evaluated and scored by an evaluation committee based on the evaluation criteria listed in Section 4 Proposal Evaluation and Award. Proposals shall conform to all terms and conditions contained in the Request for Proposals. Proposals which do not conform to all requirements expressed in this solicitation may be rejected without further evaluation, deliberation, or discussion.

B. All proposals will be reviewed for reasonableness. Offerors who are not within the competitive range will be notified that their proposals are unacceptable, negotiations/discussions are not contemplated, and any revisions of their proposals will not be considered.

C. Award will be made to the responsive and responsible Offeror whose proposal, conforming to the solicitation and will be most advantageous to the OHA with consideration to price and other evaluation criteria set out in this RFP.

D. Pursuant to chapter 3-122-59 HAR, if there is only one responsible Offeror submitting an acceptable proposal, an award may be made to the single Offeror; rejected and new requests for proposals may be solicited if certain conditions are not met; the proposed procurement may be cancelled; or an alternative procurement method may be conducted.

E. The OHA reserves the right to award a contract on the basis of the initial offers received without discussion. Offers are solicited on an "all or none" basis. Failure to submit offers for all items and quantities listed shall be cause for rejection. Proposals should be submitted initially on the most favorable terms of a price and technical standpoint, which the Offeror can submit to the OHA.

VI. Final Evaluation and Award

A. The Evaluation Committee will determine the acceptable proposals and may produce a Priority List of Offerors. This priority list will consist of at least three Offerors and each Offeror may be invited to make a presentation to the committee. Once presentations are completed, a request for a Best And Final Offer (BAFO) will be made and the evaluation committee will proceed to score the Priority List of Offerors. Only Offerors on the Priority List of Offerors are eligible to enter discussions, receive further addenda to the RFP, and submit BAFOs. The RFP Coordinator will notify the winning Offeror that they have been chosen to receive the award and will notify the other Offerors in writing that a different Offeror has been selected.
VII. Discussions - Kūkākūkā

Discussions may be conducted with a priority list of Offerors who submit proposals determined to be acceptable or potentially acceptable of being selected for award, but proposals may be accepted without discussions. The objective of these discussions is to: 1) promote understanding of the requirements set forth in the RFP and the Offeror’s proposal; and 2) facilitate arriving at a contract that will provide the best value to the OHA, taking into consideration the evaluation factors set forth in this RFP. Any discussion is not intended to require an award of contract by the OHA.
