REQUEST FOR PROPOSAL No. RD 2018-05

QUESTIONS AND ANSWERS

The Pre-Proposal Conference for the Digitization of Land Patents Issued for Government Lands (Grants) questions and answers are as follows:

1. So everything we submit belongs to OHA?

All deliverables are the property of the OHA.

2. Can this work be referenced or disclosed in future work that the Contractor does?

No. The work product belongs to the OHA.

3. Are ALL of the maps that we will need to georeference in digital and TIFF format?

All of the maps are digitized, however some of the maps are actually in .pdf format which would still need to be converted to a usable raster format. There is no need for digitization of any maps. It is likely we will provide all of the maps in a .tif format before contract commencement. There is a small possibility that some maps used to aid georeferencing may need to be converted on-the-fly.
